### FEED:

WEEKLY SUMMARY.....	12-13
FEEDSTUFFS: WHOLESALE PRICES.....	14-15

## **HIGHLIGHTS:**

Light pressure was noted in wheat pits this week due to low weekly export inspection numbers with Japan the major purchaser. This week only 140 thousand tons were booked and year to date figures continued to drop. On the other hand, some strength was received from strong corn sales and technical buying on the Boards. Sharp gains in corn bids stemmed from good export purchases with weekly sales at 1.4 million metric tons. This should help bring the yearly figure up somewhat but sales need additional improvement. Fund buying was also a support factor in higher corn bids. Soybean trade was the flip side of the coin with sharp declines noted due to fund and technical selling on the Board. Weekly export sales were within the trade estimate at 339 thousand metric tons but yearly figures, like the other commodities, remains low. Wheat mixed, 9 cents lower to 12 cents higher with Minneapolis up to 25 cents higher. Corn 6 to 10 cents higher. Sorghum 12 to 14 cents higher. Soybeans 15 to 19 cents lower.
